## Tips

### Please note the following guidelines

- The entire will must be transcribed by hand.
- The will must be dated with the current date (day, month, year) and signed.
- Write your name correctly and completely (as on your passport or identity card).
- Number all pages (page 1 of n).
- The will must not contain any corrections or deletions.
- Deposit the will with your local authority.
- Any person who has the capacity of judgement and is at least 18 years old has the right to draw up a will disposing of his or her property.
- Note: Percentages are rounded to 2 decimal places. Rounding differences can lead to deviations from the 100% total in the per mille range.
- HNote: The division of the matrimonial property under matrimonial property law takes precedence over the division under inheritance law (will).
- Note: Also check any tax consequences of your declaration of intent.
- Note: If you have not allocated your free quota in full in the division of the estate, the community may be entitled to inherit under certain circumstances.
- Note: Organisations and non-statutory heirs are not granted inheritance status in this template. They will participate in the estate through legacies/bequests.
- Note: If you bequeath a legacy in CHF, please note the following: An heir with a statutory inheritance entitlement can abate the legacy if the testator has exceeded his or her testamentary freedom.
